

Poster Competition on the theme “Startup India”

on

27th January 2016

A Poster competition was organized on the theme “Startup India” to create awareness on the various facets of startups and of the schemes of Prime Minister’s Startup India Action Plan. 15 students participated in the competition. They gave their presentation in the presence of Dr. Preeti Bajaj, Director, GHRCE. After the presentation Dr. Bajaj addressed the students and also talked about the various ideas such as the use of technology in medical science and the entrepreneurship opportunities in specific medical areas like diabetes and cancer and other pathological tests. She also announced that mentoring session by experienced mentors would be conducted every month. Her address greatly motivated the students.
