Workshop on Research Methodology & Project Management
(19 to 31 Jan 2015 for the Second Semester PG students of Engineering & Technology)
Under
TEQIP-II

A workshop on Research Methodology is arranged for the Second Semester PG students of Engineering & Technology in different departments. This workshop aims to give systematic process of identifying the problem, defining the problem, identifying the variables/ indicators to address these problems, collecting, compiling, processing and analyzing data to assess the inherent characteristics of the phenomenon under study and to identify the objective basis for arriving at a correct/reliable decision

Objective:

The objective of this program is to enable researchers to understand and appreciate the nature, complexities and challenges of research on and equip them with knowledge and skills that will enable them to exercise choice between available techniques or methods of research. The workshop shall help the candidates to conduct research with reference to the objectives of a particular topic of investigation. This workshop shall also discuss how write technical paper, patent filing, evaluation of research by various ways like citation, impact factor, etc.
